

## High Temperature Tapes

We offer PTFE coated fiberglass tapes for high temperature applications. The thickness of our tapes ranges from .003"-.023". Our PSA backings are offered in Acrylic or Silicone and can be ordered with or without a liner. Whether you have an Optima™ bagger or any piece of packaging equipment, we can supply custom zone tapes for your machine.

Mill Thickness	PSA (Adhesive)		Length of Roll (Yards)
	Acrylic (Blue Liner)	Silicone (Yellow Liner)	
3	✓	✓	18/36
6	✓	✓	18/36
10	✓	✓	18/36

\*1/2" - 5" Wide Most Common

\*\*Custom Widths Available Upon Request

## High Temperature Sealing Belts

We fabricate custom sealing belts for packaging equipment. We stock finished belts for Hayssen, Pemco, and Bosch, available for same day shipping. Our universal splice will eliminate the need to inventory both right and left hand belts. The common industries we supply are: Tissue and Paper Wrapping, Pharmaceutical Packaging, Bag Manufacturing, and Balloon Manufacturing.

## High Temperature Food Belts

We provide the longest lasting food belts in the industry. We manufacture custom belts for oven, hot press, and grill applications. If you require a belt with indexing tabs, specialty splices, or field installation, we can build a belt specific to your needs. Our automated production facility allows us to offer competitive pricing and same day delivery when required. Common industries include but not limited to: Meat, Poultry, Tortilla, and Pizza Crust Manufacturing.
