

Baking Industry

Industrial Solutions Unlimited has over 30 years of experience servicing manufacturing plants and specializes in the Baking Industry. We examine applications, provide alternative solutions, perform storeroom audits, and make recommendations to reduce inventory. Additionally, we engineer custom parts emphasizing process improvement. Our quick and effective solutions will save you time and money.

OUR BAKING PRODUCTS:

- Proofer Cups
- Rollers
- Depanner Belts, Suction Cups, Retainers
- Catch Cloths
- Rounder Bars
- Rounder Belts
- Gemini™ Aftermarket Reverse Engineered Parts
- UHMW Wear Stripping
- PTFE Side Sealer Belts
- Lematic™ Aftermarket Drive Belts
- Dough Feed Belts
- Filtration Bags and Sleeves
- Modular Plastic Belting (Intralox, Habasit Link, etc.)
- Tabletop Chain
- Metal and Wire Mesh Belting
- Positive Drive Belting for Dough Feed Systems
- Slicer/Hold Down Belts
- Molder Belts
- Magnetic Pan Belting

Mixing and Dough Feed

ISU stocks and supplies a variety of belting and parts for dough mixing, vertical dough feed, and chunker applications. We have a full line of Dough Feed belting including our positive drive line and oil-resistant, urethane fabric belting line for these applications. ISU will consult with your team on Dough Feed improvements for problems such as tracking, fraying, slipping, dough release, and build-up. ISU has a full line of Baking Industry stainless steel and plastic rollers for these applications as well.

Divider/Rounder

Our ISU team of experts has extensive experience in dough handling, dividing, rounding, and molding applications and can offer specific solutions. Our locations stock and supply aftermarket belting and parts for baking applications including **Gemini™**, **Oshikiri™**, and **AMF™** amongst many others. ISU fabricates aftermarket belting for **Model K Rounders™**, and **Gemini Dividers™**, including a stocking program for quick ship in common applications.

Proofer Parts: Cups, Belts, Nose Rollers, Support Bars

We have a full range of aftermarket, reverse-engineered products for Baking Industry Proofing systems that includes Bun/Bread, Tortilla, Pizza, Muffin, Pretzel, and other Proofing line options. We stock, supply, and fabricate aftermarket proofer cups, proofer belts, nose rollers, and drive rollers for such OEM systems as **AMF™**, **Gemini™**, **Oshikiri™**, **Lawrence™**, **Adamatic™**, and several others.

Pan-O-Mat/De-Panning

ISU is your source for depanner belts, Pan-o-mat belts, depanner cups, and retainers for the Baking Industry. This includes aftermarket parts and belts for **Stewart™**, **AMF™**, **Capway™**, and **Gemini™** systems amongst several others. ISU also stocks and supplies belting for Pan applications like Stacker/Unstackers and general Pan Transfers. ISU will help your team extend the life of both your belting and pans with some of our specialty compounds in our ISU line of Table-top chain, Metal, Plastic Modular, and Fabric-style Belting.

Slicing/Packaging/Overwrap

ISU specializes in the Baking Industry Slicing and Packaging applications. This includes fabrication and stocking programs for several common OEM belts for **Lematic™** drive belts, Slicer hold-down belts, PTFE side sealer belts, and many others. Our line of baking industry products also includes catch cloths, specialty rollers, breather bags/sleeves, and metal/wire mesh offerings.
